PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student with hands-on experience in frontend and backend development using React.js, Next.js, TypeScript, Node.js, and Django. Skilled in building reusable UI components, RESTful API integrations, and scalable web applications with clean, maintainable code. Published an open-source React design system as an npm package. Strong understanding of responsive design, cross-browser compatibility, and collaborative software development.

EDUCATION

B.Tech in Computer Science and Engineering

2022 – 2026

BSA Crescent Institute of Science and Technology, Chennai

Relevant Coursework: Data Structures, Algorithms, Web Development, Databases

CGPA: 8.6/10

Higher Secondary and Secondary Education

2020 – 2022

St. Sebastian Matriculation Higher Secondary School, Chennai

Class XII: 94% Class X: 88%

SKILLS

Languages	JavaScript, TypeScript, Python, C++
Frontend	React.js, Next.js, HTML, CSS
Backend & Databases	Node.js, Django, SQL, PostgreSQL
Data & Tools	Pandas, NumPy, BeautifulSoup, Selenium, Git, Power BI

EXPERIENCE

Frontend Developer Intern (Full-Time)

Dec 2025 – Present

Prudent AI

- Modernized and scaled 3 production React applications by migrating the Broker Portal from v1 to v2, using React, TypeScript, Redux Toolkit, RTK Query, Vite, and React Router, improving codebase maintainability and reusability for the engineering team.
- Architected an in-house design system and integrated third-party services including Plaid multi-borrower workflows and Encompass, building reusable UI components, authentication flows, API services, and tenant-driven configurations across the platform.
- Shipped 83 of 93 submitted pull requests into production, strengthening file validation and error handling, and supporting trial-to-production release cycles as part of a collaborative development team.

PROJECTS

Lite UI - A Lightweight design system [\[Live Demo\]](#) [\[GitHub\]](#)

- Designed and published a lightweight, accessible React component library to npm, optimized for small bundle size and reusability across projects.
- Built an interactive Theme Studio for live visual theme customization, plus a full documentation site with live component previews, API docs, and installation guides.

Pet Zone – E-commerce Platform [\[Live Demo\]](#) [\[GitHub\]](#)

- Built a full-stack e-commerce application end-to-end, with a dynamic React frontend and a Node.js backend enabling users to browse and purchase pet products.
- Implemented a shopping cart, user authentication, and an admin product management dashboard.

API Hitter – REST API Testing Platform [\[Live Demo\]](#) [\[GitHub\]](#)

- Built a REST API testing tool in React 19 and TypeScript, supporting all major HTTP methods and basic authentication.
- Built to provide a lightweight, self-hosted alternative to tools like Postman for quick API testing, without the overhead of installing a desktop client or creating an account.
