PROFESSIONAL SUMMARY

I am a B.Tech Computer Science and Engineering student with hands-on experience in frontend and Backend development, skilled in building responsive, scalable, and user-friendly web applications using modern JavaScript frameworks. Experienced in developing reusable UI components, creating custom design systems, and enhancing application performance through clean, maintainable code. Strong understanding of web technologies, cross-browser compatibility, and delivering seamless user experiences in collaborative team environments. .

EDUCATION

B.Tech in Computer Science and Engineering

2022 – 2026

BSA Crescent Institute of Science and Technology, Chennai

Relevant Coursework: Data Structures, Algorithms, Web Development, Databases CGPA: 8.6/10

Higher Secondary and Secondary Education

2020 – 2022

St. Sebastian Matriculation Higher Secondary School, Chennai

Class XII: 94% Class X: 88%

SKILLS

Languages	Python and Libraies of (Pandas, Beautifulsoup, Selenium, Numpy, etc), JavaScript, C++.
Libraries	(Pandas, NumPy, BeautifulSoup, Selenium) -for Data analysis
Frontend	HTML, CSS, React.js , Next.js.
Backend	Node.js, Django
Databases and Tools	SQL, PostgreSQL ,Git, PowerBI

EXPERIENCE

Frontend Developer Intern

Dec 2025 – Present

PRUDENT AI

Full time

- Built and modernized production React applications across 3 codebases, using React, TypeScript, Redux Toolkit, RTK Query, Vite, and React Router, including the Broker Portal v1→v2 migration and reusable architecture.
- Architected an in-house design system and major integrations, building reusable UI components and implementing Plaid multi-borrower workflows, Encompass integration, authentication, API services, and tenant-driven configurations.
- Delivered 93 PRs with 83 merged across 3 production applications, resolving production issues, strengthening file validation and error handling, and supporting trial-to-production releases.

PROJECTS

Lite UI - A Lightweight design system [\[Live Demo\]](#) [\[GitHub\]](#)

- Created and published a lightweight React Design System as an npm package using React and TypeScript, delivering reusable, accessible, and customizable UI components with optimized performance and minimal bundle size.
- Built an interactive Theme Studio for visual theme customization and export, and developed a documentation platform with live component previews, API documentation, installation guides, and code examples to enhance developer experience.

Pet Zone – E-commerce Platform [\[Live Demo\]](#) [\[GitHub\]](#)

- Developed a full-stack e-commerce application with a dynamic frontend and using Node.js for the backend, enabling users to browse and purchase pet products.
- Implemented key features including a shopping cart, user authentication, and a product management dashboard for administrators.

API Hitter – REST API Testing Platform [\[Live Demo\]](#) [\[GitHub\]](#)

- Built a REST API testing platform with React 19 + TypeScript supporting all HTTP methods,authentication(basic)
- Deployed as an optimized static site with professional UI and a qucik api testing platform.
